

Camp Site Size = 60m²

Standard campsite should be sufficient to accommodate **one caravan or tent, one car/utility and one boat.**

Dogs

Dogs are welcome but they must be registered, kept under control. Owners of wandering dogs may incur a fine or the animals removed.

Speed

Maximum speed for any vehicle within camping areas is 10kph.

Take care when entering/leaving camp sites - watch for children.

Note: Riding of recreational motor bikes is prohibited in camping sites.

Recycling - helps minimise Camping Fee increases

As most of your camping fees go towards refuse removal, we ask that rubbish be kept to a minimum. Bins will be provided for both waste and recycling.

Those caught illegally dumping rubbish will be prosecuted.

Port-a Pottie Stations

Situated at Briars Gully, Te Akatarawa, Waitangi and Fishermans Bend camp sites.

Do not empty port-a-pottie contents down toilet bowls as the chemicals destroy the normal operation of camp septic tanks. **Failure to adhere to this may result in camp closure due to sanitary reasons.**

Noise

In consideration to other campers, unnecessary noise and obscene language will not be tolerated. Noise to be kept to a minimum between 10.00pm and 7.00am.

Offenders will be removed.

Vegetation

Felling of trees is prohibited. Should limbs require removal, please advise camp supervisors who will assess and undertake the work should the situation require it. **CAMPING UNDER TREES IS AT YOUR OWN RISK.**

Fires

Light no fires

Firearms

Prohibited in all camping areas.
